- 1. Fiscal year:** The fiscal year is begun on January 1 and ended on December 31 annually.
- 2. Reporting currency:** VND.

III. Adoption of Accounting Standards and Policies**Disclosure of compliance with Vietnamese Accounting Standards (VAS) and the prevailing regulations:**

The Bank's financial statements are prepared at original cost and in compliance with Vietnamese Accounting Standards, the Accounting System and relevant regulations applicable to the banks and other credit institutions operating in Vietnam. The financial statements, therefore, are not aimed to present the financial position of the Bank as well as its operating results and cash flows in accordance with accounting principles and practices accepted in countries and jurisdiction other than the Socialist Republic of Vietnam. Vietnamese accounting principles and practices may differ from ones in other countries.

Applied Accounting Regime and Forms

The Bank applies the Vietnamese accounting regime applicable to credit institutions in accordance with Decision No. 479/2004/QĐ-NHNN dated April 29, 2004, the regime on financial statement for credit institutions under Decision No. 16/2007/QĐ-NHNN dated April 18, 2007 and Circular No. 10/2014/TT-NHNN dated March 20, 2014 and Circular No. 49/2014/TT-NHNN dated December 31, 2014 and Circular No. 22/2017/TT-NHNN dated December 29, 2017 and Circular No. 27/2021/TT-NHNN dated December 31, 2021 issued by the State Bank of Vietnam and other relevant Accounting Standards.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***IV. Applicable Accounting Policies****1. Changes in accounting policies**

Changes in accounting policies and notes to the Bank's accounting policies used to prepare these interim separate financial statements are applied consistently with the accounting policies used to prepare the interim separate financial statements for the fiscal year ended December 31 2024 and the interim separate financial statements for the 9-month period ended September 30 2024, except for the following changes:

Document No. 4848/NHNN/TCKT ("Doc. No. 4848") on accounting guidance for letter of credit transactions and other business activities related to letters of credit.

The State Bank of Viet Nam has issued Doc. No. 4848, effective from June 11, 2025, providing accounting guidance for letter of credit transactions and other business activities related to letters of credit. Accordingly, the Bank shall convert the balances in the accounting books for transactions related to letters of credit before July 1, 2024 in accordance with the accounting guidance in this document.

2. Monetary exchange

The exchange rate used to record transactions of buying and selling foreign currencies is the actual buying and selling rate at the time economic and financial transactions arise.

The exchange rate used to record other business in foreign currency for VND conversion: The average spot exchange rates (buying and selling) of that foreign currency as on the date of the transactions made.

Closing balance of monetary items denominated in foreign currencies must be revaluated at the spot exchange rate at the end of the last working day of the reporting period, if this exchange rate is 1% less than the weighted average rate of buying and selling exchange rate as at the last working day of the reporting period. If this exchange rate is 1% above the weighted average rate of buying and selling exchange rate as at the last working day of the reporting period, then the mentioned weighted average exchange rate is applied.

Foreign exchange rate differences upon the generated transactions and revaluation of closing balance of monetary items denominated in foreign currencies are recorded in the Income Statement in the period.

Exchange rate as at September 30, 2025:

26.310 VND/USD	178,93 VND/JPY
19.035 VND/CAD	17.501 VND/AUD
31.088 VND/EUR	20.513 VND/SGD
35.570 VND/GBP	33.258 VND/CHF

3. Derivative for financial instruments and provision for losses

Derivative financial instruments are recorded in the balance sheet at the contract value on the transaction date and then revaluated at month end foreign exchange rate. The profit or loss after the derivative financial instruments realized are recorded in the Income Statement. Unrealized profit or loss is recorded in the foreign exchange difference item of the balance sheet at the month end and shall be transferred to the Income Statement at the year end.

4. Accounting for interest income, interest expenses and termination of interest accruals

The Bank records interest income and interest expenses by accrual method on daily basis. Interests on overdue loans are not recorded on accrual basis, but in the off- balance sheet. When a loan item becomes overdue, the accrued interest shall be reversed and recorded in the off-balance sheet. The interests of overdue loans shall be recorded in the Income Statement once they are collected.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***5. Accounting for fees and commission income**

Income from fee and commission includes income from settlement service, cashier service, fee of guarantee and other services which are recorded upon actual receipt.

6. Accounting for loans granted to customers and debt purchase activities**Accounting for loans granted to customers**

Recording and measuring loans to customers

Loans granted to customers are presented at the principal amounts outstanding minus any provision made for loans to customers.

Short-term loans are those which have maturity of less than or equal to 01 (one) year from the disbursement date. Medium-term loans are those which have maturity from over 01 (one) year to 05 (five) years from the disbursement date, and long-term loans are those which have maturity of more than 05 (five) years from the disbursement date.

Classification of debts

Debt classification for term deposits and loans to other credit institutions, unlisted corporate bonds, loans to customers, entrustments for credit granting (herein referred to as "debts") is performed monthly according to the quantitative method prescribed in Article No.10 of Circular No. 31/2024/TT-NHNN dated June 30 2024 ("Circular No. 31"). The Bank shall classify debts monthly based on the principal balance as at the last day of the preceding month.

Debts are classified according to the risk levels as follows: Current debt, Special mentioned debt, Substandard debt, Doubtful debt and Loss debt. The Bank restructures the debt repayment term and maintains the debt group to support customers facing difficulties in accordance with the provisions of Circular No. 02/2023/TT-NHNN dated April 23, 2023 and Circular No. 06/2024/TT-NHNN dated June 18, 2024 of the State Bank of Viet Nam.

Debts are classified into lower-risk debt groups in the following cases*For overdue debt*

- The customer has fully paid the overdue principal and interest (including interest applicable to the overdue principal) and the principal and interest of the following repayment terms within a minimum period of 03 (three) months for medium-term and long-term debt, 01 (one) month for short-term debt, from the date of starting to fully pay overdue principal and interest; and the Bank has documents and records to prove that the customer has paid the debt;

- The Bank has sufficient information and documents to assess that customers are capable of fully paying the remaining principal and interest on due dates.

For debt with restructured term

- The customer has fully paid the principal and interest according to the restructured repayment term for at least 03 (three) months for medium-term and long-term debt, 01 (one) month for short-term debt, from the date of commencement of full payment of principal and interest according to the restructured term.

- The Bank has sufficient information and documents to assess that customers are capable of fully paying the remaining principal and interest on due dates.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***Debts are classified into higher risk debt groups in the following cases**

- The indicators of profitability, solvency, debt-to-capital ratio, cash flow, and debt repayment ability of customers decreased continuously through 03 times of continuous assessment and classification of debts.
- The customer fails to provide sufficient, timely and truthful information at the request of the credit institution, foreign bank branch to assess the customer's debt repayment ability.
- Debts that have been classified into group 2, group 3, group 4 according to the provisions in point a, b, Clause No. 3, Article No. 10 of Circular No. 31 for 01 (one) year or more but are not eligible to be classified into the debt group of lower risk.
- Debts granted by the act of credit extension which is subject to administrative penalties as prescribed by law.

The Bank is required to use the risk classification results provided by the Credit Information Center of the State Bank ("CIC") to classify the Bank's loans to customers into the higher-risk group between the debt group assessed by the bank and the debt group provided by CIC.

In case a customer has more than 01 (one) debt with the Bank and any debt is classified into a higher-risk debt group, the Bank is required to classify the remaining debts of that customer into higher debt groups that are commensurate with the level of risk.

Provision for credit risk

Provision for credit losses includes general and specific provisions.

According to the provisions of Decree No.86/2024/NĐ-CP dated July 11 2024 (Decree No. 86), the Bank makes specific credit risk provisions based on the provision rate corresponding to the debt classification results and the principal balance minus the deductible value of collateral assets which are discounted. Specific provisions are calculated based on debt classification results and the principal balance on the last working day of the month.

Specific provision is made for losses possibly happening to specific loan items, with the corresponding rates as below:

Debt classification		Specific provisioning rate
Group 1	Current debt	0%
Group 2	Special mentioned debt	5%
Group 3	Substandard debt	20%
Group 4	Doubtful debt	50%
Group 5	Loss debt	100%

Specific provision is calculated based on the balance of loans to each customer on the last working day of each month minus the discounted value of the collateral. The deduction rate of the collateral is specified in Clause No. 2, Article No. 6 of Decree No. 86.

According to Clause No. 1, Article No.7, Decree No. 86, general provision is made for unidentified losses during debt classification and specific provisioning and in cases where credit institutions face financial difficulties mainly when the quality of the debt deteriorates. Accordingly, the Bank must make and maintain a general provision equal to 0.75% of the total balance of loans from group 1 to group 4, except the followings:

- Deposits at credit institutions, foreign bank branches as prescribed by law and deposits at overseas credit institutions;
- Loans, term purchases of valuable papers between credit institutions, foreign bank branches in Vietnam;
- Purchases of promissory notes, bills, certificates of deposit, bonds domestically issued by other credit institutions, foreign bank branches;

- The amount for re-purchase of Government bonds on the security market as prescribed by Law on issuance, registration, security depository, listing, transactions of debt instruments of the Government on the stock market;

- Other debts arisen from activities specified in Clause No. 2, Article No. 3, Decree No. 86 between credit institutions, foreign bank branches located in Vietnam according to law.

Using risk provision

Provisions are recorded as an expense on the income statement and are used to handle debts classified in group 5, borrowers are dissolved or bankrupt organizations, individuals are dead or missing and to handle asset losses for debts as prescribed in Article No. 11 of Decree No. 86.

Handling credit risks

The writing-off of irrecoverable loans is based on Article 12 of Decree 86.

Debts sold to Vietnam Asset Management Company ("VAMC")

The Bank conducts factoring activities to VAMC under Decree No. 53/2013/ND-CP issued by the Government on May 18, 2013, Decree No. 34/2015/ND-CP issued by the Government on March 31, 2015 amending and supplementing a number of articles of Decree No. 53/2013/ND-CP, Circular No. 19/2013/TT-NHNN issued by the State Bank of Vietnam on September 06, 2013 on trading and handling bad debts of Vietnam Asset Management Company of Vietnam Credit Institutions and debts sold to VAMC which are removed from the balance sheet in accordance with the guidance in Official Letter No. 8499/NHNN-TCKT issued by the State Bank of Vietnam on November 14, 2013 guiding the accounting of bad debt trading of VAMC and credit institutions and Official Letter No.925/NHNN-TCKT issued by the State Bank dated February 19, 2014.

The special bonds issued by VAMC corresponding to the bad debts that the Bank sells are recorded as held-to-maturity debt securities.

Upon the completion of trading bad debts, the Bank uses specific provisions that have not been used to record reduction in carrying value of the bad debts and finalize off-balance sheet accounts to observe the unearned interest of those bad debts.

7. Accounting for security trading and investing**7.1 Investments in securities****Held-to-maturity securities**

Held-to-maturity securities are those with fixed terms and payments which are fixed or identifiable and the Board of Management has the intention and capability to hold until their maturity.

Unlisted held-to-maturity corporate bonds are recorded at original cost minus provision for credit risk. The debt classification and credit risk provision of unlisted corporate bonds shall be made according to the policies applied to loans granted to customers.

Other held-to-maturity securities are recorded at original cost minus provision for devaluation. Provision for devaluation is made when the market price of the securities falls below the book value or when there are signs of a decline in value according to the evaluation of the Board of Management.

The premium and the discount value arising from the purchase of held-to-maturity securities are allocated to the Income Statement of the Bank on a straight-line basis from the date of purchasing the security to the maturity date of that security.

Interest income after the purchase of held-to-maturity securities is recorded in the statement of income on an accrual basis.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***Special bonds issued by VAMC**

Special bonds issued by VAMC are term valuable papers issued by VAMC for the purpose of purchasing bad debts of the Bank and are recorded as held-to-maturity debt securities.

Special bonds are recorded at face value on the transaction date and are presented as face value minus specific provisions during the holding time.

The face value of the special bond is the value corresponding to the book value of the outstanding loan principal after deducting the specific provision that has been made but unused of that bad debt.

Periodically, the Bank shall calculate and make provisions for the risk of such special bonds as stipulated in Decree No. 53/2013/ND-CP dated May 18, 2013 of the Government and Circular No. 19/2013/TT-NHNN dated September 06, 2013 of the State Bank of Vietnam. Accordingly, the Bank shall make provision for risk of special bonds to minimum operating expenses equivalent to 20% of face value of each special bond.

The Bank does not have to make general provision for special bonds.

7.2. Investments in subsidiaries

Investments in subsidiaries are recognized when the Bank holds more than 50% of the voting rights and has the power to govern the financial and operating policies so as to obtain benefits from its activities. When the Bank no longer holds control of the Subsidiary, the investment in the subsidiary is reduced. Investments in Subsidiaries are stated in the financial statements using the historical cost method.

The cost method is a method of accounting where an investment is initially recognized at cost, and then not adjusted for changes in investors' share of the investee's net assets. The income statement reflects only the income of investors divided from the accumulated net profits of the investee arising after the date of investment.

Provision for loss of investments in subsidiaries is made when the Bank determines that these investments are subject to a non-temporary and unplanned impairment in value due to operational losses of the invested subsidiaries.

7.3. Other long-term investments

Other long-term investments are investments with a ratio less than or equal to 11% of the share capital of economic organizations. Long-term investments are initially recognized at cost.

Provision for loss of long-term financial investments is established when the Bank identifies economic organizations in which the Bank invests at a loss (except for forecasted losses that have been determined in the business plan before investing) according to the provisions of Circular No. 48/2019/TT-BTC issued by the Ministry of Finance on August 8, 2019, and amending several articles according to Circular No. 24/2022/TT-BTC issued by the Ministry of Finance on April 7, 2022. Accordingly, the level of provision for loss of long-term financial investments is the difference between the actual capital contribution of the parties at the economic organization and the actual equity capital of the parties multiplied (x) by the ratio of the Bank's investment capital to the total actual capital contributions of the parties at the economic organization.

8. Principles for recognition of tangible fixed assets

Tangible fixed assets are stated at cost minus accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred after their originally assessed standard of performance are recorded as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are recorded as the expenses in the year.

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the income statement.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million**Tangible fixed assets purchased*

The original cost of purchased tangible fixed assets shall consist of the actual purchase price (minus (-) trade discount or reduction), taxes (excluding taxes to be refunded) and expenses directly related to putting such fixed assets into operation such as fees for installation, trial operation, specialists and other direct costs.

The original cost of a tangible fixed asset formed from construction investment under the mode of tendering shall be the finalized price of the construction project, other relevant fees plus (+) registration fee (if any).

Fixed assets which are buildings, structures attached to land use rights, the value of land use rights is computed separately and recorded as intangible fixed assets.

9. Principles for recording intangible fixed assets

Intangible fixed assets are stated at original cost minus accumulated amortization. The original cost of an intangible fixed asset comprises all costs incurred by the Bank for owning the asset to the date it is put into operation as expected.

Purchase of separate intangible fixed assets

The original cost of separately purchased intangible fixed assets shall consist of the actual purchase price (less (-) trade discount or reduction), taxes (excluding taxes to be refunded) and expenses directly related to putting such fixed assets into operation. The land use rights which are purchased in conjunction with buildings, structures attached to land shall be separately determined and recorded as intangible fixed assets.

Intangible fixed assets formed from the exchange and payment of documents related to the capital ownership of the entity, the original cost of the intangible fixed assets is the fair value of the issued documents relevant to capital ownership.

Land use rights

The original cost of an intangible fixed asset which is the land use right shall be the payment made to obtain the lawful land use rights, compensatory payments for site clearance, expenses for ground leveling, registration fee...or land use right as capital contribution in joint-venture.

Computer software

Computer software is all expenses that the Bank has spent up to the time of putting the software into use.

10. Method of depreciating and amortizing fixed assets

Depreciation of tangible fixed assets is computed on a straight line basis over their estimated useful lives. Estimated useful life means the duration in which the tangible fixed assets produce their effect on production and business.

The estimated useful life for fixed assets is as follows:

<i>Buildings and structures</i>	<i>25 years</i>
<i>Machinery and equipment</i>	<i>4 - 8 years</i>
<i>Transportation and facilities</i>	<i>5 - 6 years</i>
<i>Office appliances</i>	<i>2 - 5 years</i>
<i>Other fixed assets</i>	<i>4 - 6 years</i>

Land use rights which are granted for a definite term are amortized in line with the term stated in the certificate of land use rights.

Land use rights which are granted for an indefinite term are recorded at cost and not amortized.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***11. Accounting for asset leases**

Operating leases: are fixed asset leases where a significant portion of risks and incentives attached to asset ownership are retained by the lessor. Payments made under operating leases are recognised in the income statement on a straight-line basis over the period of the operating lease.

12. Cash and cash equivalents

In the statement of cash flows, cash and cash equivalents include cash, precious metal and gemstones, current account balance at the State Bank of Vietnam, demand deposits and deposits with the term of under 90 (ninety) days since deposit date at other credit institutions, government bond and other short-term valuable paper qualified to be discounted by the State Bank of Vietnam, securities with recoverable or maturity term of less than 3 (three) months since purchase date, convertible to certain amount, containing minimum risk of value change, and held for the purpose of meeting commitments for short-term payment rather than for investment or others.

13. Provisions, contingent liabilities and unidentified assets

Provisions are recorded when: The Bank has present obligations as a result of events in the past; It probably leads to a decrease of necessary economic benefits to settle the liabilities; The liability is estimated reliably. Provision is not recorded for the operating loss in the future.

When there are similar liabilities, the possibility of outflow in economic benefits due to the settlement of obligations is determined by considering the whole group of obligations in general. Provision shall be made though the economic benefit outflow because liability settlement is very small.

Provision is calculated at present value of estimated expenses for settling liabilities at the discount rate before tax and reflects the current market assessment of the time value of money and specific risk exposure to the liability. The increase of provision throughout time shall be recorded as interest expense.

14. Accounting for obligations to employees

The Bank records salaries, wages and other payables to employees in the operating expense items in the period on the basis of salary expenses incurred in the period. The salaries, bonuses to employees are based on the conditions and level provided in the following documents: Labor Law of Vietnam, Labor Contract, Labour Union Agreement, Financial Statute of the Bank and Group, Statute on rewards regulated by the Chairman, General Director, Director on the basis of the Bank or Group's Financial Statute.

15. Principles and methods for recording current and deferred corporate income taxes

Corporate income tax comprises of total current and deferred tax when determining its profit or loss of one accounting period.

Current corporate income tax is the tax payable (or recoverable) on the taxable income and tax rate enacted in current year in accordance with the law on corporate income tax.

Deferred corporate income tax is defined for temporary differences between the basis of calculating income tax on assets, liabilities and their book values for financial reporting purposes and the amounts used for taxation purposes, as on the date of the balance sheet. Deferred income tax payable is recorded for all temporary differences, deferred income tax asset is only recorded when there is sufficient taxable profit in the future for deducting the temporary differences.

The carrying amount of deferred tax assets must be reassessed at the end of the fiscal year and reduced to the extent that it is certain that sufficient taxable profit shall be available to allow the benefit of part or all of that deferred income tax assets to be utilized. The unrecognized deferred tax assets will be reassessed at the end of the fiscal year and recognized to the extent that it has become certain sufficient taxable profit will allow the deferred income tax asset to be utilized.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million*

Deferred income tax is recognized in the statement of income except to the extent that it relates to an item recognized directly in equity, in which case the deferred income tax is also recognized directly in equity.

The Bank offsets deferred income tax assets and deferred income tax liabilities only to the extent that it has a legally enforceable right to set off current income tax assets against current income tax liabilities and other deferred income tax assets and deferred income tax liabilities relate to income taxes levied by the same tax authority on the same taxable entity and the enterprise intends to pay current tax liabilities and current tax assets on a net basis.

Taxes payable to the state budget shall be settled specifically with the tax authorities. The difference between the payable tax amount according to the books and the data for checking and finalization shall be adjusted when there is an official finalization with the tax office.

The bank has been inspected for tax finalization as at 2019.

16. Accounting for loans, issuance of debt securities and equity instruments

Principle of recording of borrowing costs: Interest and other costs directly attributable to the enterprise's loans are recognized as a business expense during the period, unless this expense arises from loans directly related to the construction investment or production of unfinished assets are included in the value of such assets (capitalized) when all conditions are met as prescribed in VAS 16 "Borrowing Costs".

The capitalization rate used to determine the borrowing costs capitalized during the period: Where general borrowings are incurred, which are used for the purpose of construction or production of an unfinished asset then the amount of borrowing costs eligible for capitalization in each accounting period is determined according to the capitalization rate to the weighted average accumulated costs incurred for the investment in construction or production of that asset. The capitalization rate is calculated according to the weighted average interest rate of outstanding loans during the period of the business. Borrowing costs capitalized during a period may not exceed the total amount of borrowing costs incurred during that period.

17. Shareholders' equity

Charter capital: The capital sourced from shares, securities purchased by shareholders or added from the profit after tax in accordance with the Resolution of Annual Shareholders' General Meeting or the Bank's charter. Business fund shall be recorded at the actual contributed capital in cash or by assets computed at the par value in the early establishment period or additional mobilization to expand operation scale of the Bank.

Share premium: The difference between the actual inflow against the par value value of the first issued, additionally issued shares and differences (increase/decrease) between the actual inflow over the repurchasing price in case of treasury share reissuance. In case where shares are bought to cancel immediately at the purchase date, shares' value for business capital written down at purchase date is the actual repurchase price and the business resource should be written down in details according to the par value and share premium of the repurchased shares.

Treasury share: is the share the Bank issued and purchased back. The payment for purchasing share, including directly attributable expenses, shall be deducted from the owners' equity till the treasury shares have been cancelled or reissued. The received amount from reissuance or sale of the treasury share, deducting expenses related to this reissuance or sale shall be included in the shareholders' equity.

Other owners' capital: Business resource which is added from the operating result or offered, presented, sponsored or under assets revaluation.

Undistributed profit

Principle for recognizing undistributed profit: the undistributed profit is recorded as the profit (loss) from the enterprise's result of operation after deducting (-) the current year corporate income tax and the adjusted items due to the retroactive application of changes in accounting policy and adjustments for material misstatement of the previous years.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million*

The distribution of profit and fund appropriation are based on the charter of the Bank and approved by the Annual Shareholder's General Meeting.

18. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss distributed to the ordinary shareholders of the Bank after setting aside the Bonus and Welfare Fund by the weighted average number of currently circulated ordinary shares in the current fiscal period. According to Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance, basic earnings per share are not presented in the separate financial statement, only in the consolidated financial statement of the Bank.

19. Related parties

Related parties include enterprises and individuals that directly, or indirectly through one or more intermediaries, can control, or are controlled by the Bank. Associates and individuals holding, directly or indirectly, the voting powers of the Bank that have significant influence on the Bank, key management personnel sitting on the Board of Management, Board of Directors, close members of the family of these individuals or associates, and companies associated with these individuals also constitute related parties. When considering each possible related party relationship, attention is placed on the relationship nature, and not on merely the legal form.

41. Financial risk management

Financial risks include credit risk, market risk and operation risk.

41.1 Credit risk

Credit risk is the risk of customers or counterparties failing to fulfill their obligations with the Bank, leading to financial loss. Credit risk arises from lending and guarantee activities under various forms.

The Bank is also subject to credit risk through investments in debt securities and other risks in its transaction activities (transaction risk), including assets in the transaction portfolio that do not belong to the owners' equity, derivatives and payment balance with partners.

Credit risk is the most significant risk in the Bank's business activities, thus the Board of Management has carefully implemented and monitored the credit risk management. Credit risk management department has been established and responsible for frequently reporting to the Board of Management and the head of each business unit.

41.1.1 Measurement of credit risk for determining loss and making provision**(a) Loans and guarantees**

The measurement of credit risk is done before and during the lending term.

The Bank has developed quantitative model for supporting the measurement of credit risk. The credit rating system is used in all material credit portfolio and being the foundation for measuring the risks of payment violations before and during lending term.

Based on such measurements, The Bank has made provisions according to Decree No. 86/2024/ND-CP dated November 7, 2024, measured and categorized its loans and guarantees according to Circular No.31/2024/TT-NHNN dated June 30 2024 .

(b) Debt securities

Investments of the Bank in debt securities are debts instruments issued by the Government and reputable credit, economic institutions. Credit risk is estimated by each specific debt in case the Bank assumes that there is credit risk change of its counterparties. These investments are considered as a way to ensure a better credit plan and maintain available credit sources for meeting requirements of capital supply.

SELECTIVE NOTES TO THE FINANCIAL STATEMENTS*For fiscal period starting from January 01, 2025, to September 30, 2025**VND Million***41.1.2 Policies to control and mitigate credit risk**

The Bank controls credit risk by setting risk limits (on and off-balance sheet) relating to each customer or group of customers as stipulated by the State Bank of Vietnam. Additionally, credit risk is controlled through periodically reviewing groups of mortgaged assets and analyzing the capacity of existing and potential customers to pay the interest and principal portion of the loans.

The Bank implements some policies and practices to mitigate credit risk. One common method is to hold secured assets. Types of assets pledged as security for credit granting items include:

- Mortgage for residential real estate; land use rights.
- Pledge for operational assets such as machinery and equipment, inventory, receivables;

For secured loans, the valuation of collateral is independently made by the Bank with the application of specific discount rates to determine the maximum line of credit. When the fair value of collaterals is reduced, the Bank shall require the borrowers to mortgage additional assets to maintain the level of safety against the risk of the loans.

The credit risk of commitments including letter of credit, financial guarantee contract are similar to credit risk of a loan. L/C requiring presentation of document sets or L/C for trade is the Bank's written commitment to pay the third party for the amount stipulated by specific terms and conditions, on behalf of its customers and guaranteed by customer's goods, hence the risk is lower than direct loans. The issuance of L/C and financial guarantee contract follows the process of assessing and approving credit as the ones designed for loans and advances granted to customers except when the customers deposit 100% for related commitments.

41.2 Market risk

Market risk is the risk of losses due to adverse changes in the fair value of financial instruments' future cash flows, following the change of the market value. Market risk is incurred from the opening position of interest rate, monetary products and equity instruments. All of these products are impacted by the fluctuation of the market in general and each type of market, as well as the change in fluctuation level of the market value such as interest rate risk, currency risk and other pricing risks.

41.3 The fair value of financial assets and liabilities

Financial assets and liabilities of the Bank are recorded as original cost minus provision for devaluation of assets. Therefore, the book value of financial assets and liabilities of the Bank may differ from their fair value.

Currently, the Bank has not determined the fair value of all financial assets and liabilities. The Bank shall present the fair value of those assets and liabilities when there is detailed guidance from the authority.
